

Coffee Break Out Discussions: From Evidence to Action: What Needs to Change?

At the end, each group answers **ONLY** this one question: “What is **ONE** action that must happen next to better integrate SRHR into climate responses?”

From Evidence to Action: What Needs to Change?

Developing standardised indicators that can drive operational research with real impact

Equity & Inclusion: Ensure participation and leadership of marginalized groups in decision-making processes at all stages, considering accessibility, intersectionality and fostering spaces of discuss.

Every state level down to local level climate change policy has SRHR as a standard, with every SRHR policy incorporating Climate change strategies- with the goal of gender balance in decisions

1. Anticipatory planning 2. Build on existing global guidelines 3. Mapping specific climatic geographic and demographic vulnerability 4. Inclusive and participatory methodology 5. Hold government accountable

From Projects to System Change: To live the Co-.... (-identification, creation, design, implement, lead, fund, evaluate).
